Annual Benefit Report for 2018

Local Blasts GBC

Benefit Officer Statement

2018 was a year of strategic planning and continuing to build the business model and brand awareness.

During the year Local Blasts GBC was able to develop the software and hardware used in its *Wheel of Giving Celebrity Sweepstakes* platform. We tested the platform at a live auction in Foley Minnesota.

In attendance by invitation were representatives of local nonprofits, board members, and event organizers to assess the system. The excitement about the systems capabilities is great and all are looking forward to it being commercially available.

The Wheel of Giving Celebrity Sweepstakes utilizes The Free Sweepstakes Wheel System, a proprietary sweepstakes system that can eliminate sweepstakes fraud. Bringing a level of transparency that gets people excited.

While we can guarantee sponsors pay out winning, we can't guarantee they won't violate data privacy and use policies. To addressing this, and Internet and sweepstakes fraud in general, we have formed the Spam Defense Squad. These are registered Local Blasts players who have agreed to set up an email account used only for Local Blasts sweepstakes, and to check it weekly and forward any spam or suspicious emails to our www.spamjammers.com website for analysis. By inserting a small number of our SDS agents into each data file delivered to a sponsor we will know if they misuse the records. Basically, a digital fingerprint inserted into each record.

We intend to use the promotional reach of our system to educate the public about the issue of sweepstakes fraud and help in coordinating efforts to combat fraud of all types. To that end we have set up a Facebook group that shares the details of any local scam activity.

The independent third-party standard selected by our Board of Directors is B Corp Assessment, which standard we believe is the most cost-effective and appropriate for our Company.
